

THE DISCOVERY CENTER

A classroom without walls for a future without prejudice

Students Impress Sponsors

Nestled in Pratt & Whitney's Hangar Museum, students from Keeney Elementary School and Washington Elementary School of Manchester, CT impress over 50 parents and guests in song and poetry. Pratt & Whitney, host of the June 2nd reception, partnered with The Discovery Center to design an interactive and challenging math and science initiative for Manchester students attending the residential program at Camp Woodstock. Following the presentations, students and families enjoyed ice cream and cupcakes, provided by Pratt & Whitney as a "thank you."

Newman's Own Foundation Week

During the week of May 23rd, The Discovery Center celebrated its first annual "Newman's Own Foundation Week" in honor of our friends at NOF. Six NOF staff visited The Discovery Center program at Camp Woodstock. Visitors toured the facilities; observed diversity, academic, and team building classes, and enjoyed lunch with students from Hebron Avenue Elementary and East Hartford Glastonbury Elementary Magnet School. A special "thanks" to NOF for their continued support of The Discovery Center program.

ALLAN WILSON: EXECUTIVE DIRECTOR

Discovery Center mission: *to shape positive attitudes about race and differences, reduce the isolationism between urban and suburban schools, and improve academic skills in math, science, and language arts.*

Thanks to faithful individuals, parents, corporate sponsors, and foundations The Discovery Center has served over **15,000 students** since 2002. We cherish your commitment and support of The Discovery Center. Thank you for making a difference in the lives of Greater Hartford students. We would love to hear from you.

DISCOVERING DIVERSITY: A Student's Perspective

"The Discovery Center is a very cool, fun place. There are around eight activities and topics we learn about including the following: friendship, diversity, culture, discrimination, exclusion, prejudice, stereotype, and having fun!!! You get a lot out of nature too. There is a great view of the lake. They do historical things like camp fires and stuff. You have cabin chat, wake up at 7:30, and have breakfast, lunch, and dinner."

-Davonne, 6th Grade, Noah Webster Micro-Society Magnet School
